EXPERIENCE

Lambda School, Remote — *Team Lead*

MONTH 20XX - PRESENT

-Managed and mentored a team of 9+ students through core curriculum, including Build Week Projects

-Held daily 1:1 code reviews, Zoom meetings and coding tutorials for students

Schweitzer Engineering Laboratories, Pullman, WA — *Assembler, Final Test*

OCTOBER 2017 - AUGUST 2018

-Tested, assembled and maintained various AC/DC current monitoring and grid monitoring equipment

-Installed software and hardware on legacy machines as well as machines with unique modifications

-Trained new hires within two months of employment

PROJECTS

Student Artco — *Full-Stack Developer*

Tech stacks utilized: React | GraphQL | Apollo | Heroku | ExpressJS | Node

Description: A web merchant application (with Android/IOS ports) for high schools to sell artwork made by students. This was a school project.

-Collaborated on, developed and maintained the hosted back-end

-Developed the merchant account front-end portion

-Made a sale within a month after the second release canvas

Lambda Lifts — *Back-end Developer, Project Manager*

Tech stacks utilized: React | Netlify | Node | ExpressJS | HTML | CSS

Description: A one-week project to develop a React-based weight lifting progress journal.

-Developed the back-end within two days time, to ensure that other students had support

-Managed a team of 7 people, making sure students stayed on task and kept up-to-date notes.

-Collaborated with the front-end team to produce a functioning application and brought it to presentation

SKILLS

HTML | CSS | React | React-Redux | NodeJS | ExpressJS | GraphQL | Heroku | Netlify | Python
